1) **RACIAL EQUITY**
   a. Racial equity refers to the condition that would be achieved if one’s racial identity, in a statistical sense, did not determine how one fares.
   b. Racial equity is also a commitment that resources are distributed based on need, recognizing that “equal” treatment, opportunities, and resources are not enough within the context of historical and structural racism and discrimination that continue to manifest in our society.
   c. This includes the elimination of policies, practices, attitudes, and cultural messages that reinforce differential outcomes or fail to eliminate them.

2) **DEFINITIONS**
   a. For the purposes of this policy and norming language across the organization, the following terms shall have these meanings:
      i. **Race** – A false classification of human beings, created during a period of worldwide colonial expansion, by Europeans using themselves as the model for humanity for the purpose of assigning and maintaining white access to power and advantage. This classification developed into a social construct that has real life implications for all individuals within a society.
      ii. **Ethnicity** – Groups that share a common identity-based ancestry, language, or culture. It is often based on religion, beliefs, and customs as well as memories of migration and colonization.
      iii. **People of Color** – Refers to individuals who may identify as Black or African – American, Asian, South Asian, Middle Eastern, Pacific Islander, Latinx, Indigenous, and multiracial. Often used interchangeably with the term “black and brown.”
         A. **Latinx** – Relating to people of Latin American origin or descent (used as a gender-neutral or non-binary alternative to Latino or Latina).
iv. **Racism** – Social and institutional power combined with racial prejudice. It is a system of advantage for those considered white, and of oppression for those who are not considered white. It is a white supremacy system.

   A. **Color-blind Racism** – A present day racial ideology that holds the belief that people, institutions and policy makers should try to ignore race in order to claim a desire to treat all persons equally but having the effect of justifying oppression. Color-blindness uses a set of ideas, phrases, and stories to discount racial oppression. Furthermore, color-blindness plays on the myth that the social realities of race and racism have all but disappeared as a factor shaping the life changes of all Americans.

   B. **Institutional Racism** – Policies and practices in institutions or organizations that result in oppressing people of color while maintaining white supremacy regardless of the intent or consciousness of individuals in the institution.

   C. **Structural Racism** – Systems (e.g. educational, economic, criminal justice, healthcare, etc.) that oppress people of color while maintaining white supremacy.

   D. **Anti-Racism** – Efforts and ideas that challenge and resist racism of all types with an emphasis on institutions, structures, and systems rather than primarily focusing on individuals who are socialized in a society built on racist ideologies, policies, and practices.

v. **White Supremacy** – A historically based, institutionally perpetuated system of exploitation and oppression of continents, nations, and peoples of color by White peoples and nations originating from the European continent for the purpose of maintaining and defending a system of wealth, power, and advantage.

vi. **Privilege/Advantage** – Unintentional advantage a person has by being a member of the dominant group in any given environment (race, class, able bodied, gender, sexual orientation, etc.)

vii. **Bias** – The attitudes or stereotypes that affect one’s understanding, actions, and decisions in a conscious or unconscious manner (e.g. feelings about other people based on characteristics such as race, ethnicity, age and appearance).

   A. **Implicit Bias** – Refers to the attitudes or stereotypes that affect our understanding, actions, and decisions in an unconscious manner.

viii. **Oppression** – A relationship of dominance and subordination between groups of people in which one benefits from the systematic abuse, exploitation, and/or injustice directed toward the other.

ix. **Intersectionality** – Framework that explores the dynamic between co-existing identities (e.g. black, woman, poor, lesbian) and connected systems of oppression (e.g. racism, sexism, classism, homophobia).

x. **Racial Disproportionality** – The ratio between the percentage of persons in a racial or ethnic group at a particular decision point or experiencing an event (e.g. maltreatment, incarceration, school dropouts, suspensions/expulsions, etc.) compared to the percentage of the same racial or ethnic group in the overall population.
xi. **Racial Disparity** – Unequal outcomes experienced by one racial or ethnic group when compared to another racial or ethnic group (in contrast, disproportionality compares the proportion of one racial or ethnic group to the same racial or ethnic group in the population).

xii. **Educational equity** – Increasing academic achievement for all students while narrowing the gaps between the lowest and highest performing students.

xiii. **Opportunity gaps** – Refers to the ways in which race, ethnicity, socioeconomic status, English proficiency, community wealth, familial situations, experience of homelessness, technological proficiency or other factors contribute to or perpetuate lower educational achievement and attainment for certain groups of students.
