The board expects all staff members to maintain the highest professional and ethical standards in their conduct with students. For the purpose of this policy, staff includes, but is not limited to, employees, contract service providers, school volunteers, student teachers, and interns.

The relationship between staff members and students in the school district should be one of cooperation, understanding, and mutual respect. All staff have the responsibility to provide an atmosphere conducive to learning which should be accomplished through effective individual and group discipline. All students and staff members will treat each other with respect.

Differences and problems that arise between a staff member and student are typically best worked out by conferences between these two persons or between the staff member and the parent/legal guardian of the student. However, staff members and students should immediately report a violation or perceived violation of the district’s nondiscrimination and/or anti-harassment policy regardless of whether a conference has been held.

Staff members are expected to exercise good judgment and maintain professional boundaries appropriate to an educational setting when interacting with students at all times, both on and off school property and through any communication device or social media tool on the Internet. Staff members are expected to avoid the appearance of impropriety in their conduct with students.

The board believes students benefit from the support of staff, and this policy is not meant to discourage staff from attending student functions, helping students before or after school, or engaging in dialogue with students that helps students in a meaningful way, so long as appropriate professional boundaries are maintained. Staff members are encouraged to discuss concerns with their supervisor whenever they are unsure whether particular conduct or activities may constitute a violation of this policy.

The board understands that there are circumstances when staff members have personal relationships with the families of students outside of school. The intent of this policy is not to prohibit all social contact between staff members and families outside of school. However, because of the trust placed in staff by the community and the district’s responsibility to protect the well-being of students, staff members are expected to avoid the appearance of impropriety in their conduct with students at all times.

**Sexual Misconduct**

Any behavior of a sexual nature which may constitute professional misconduct and/or is a violation of criminal or civil statutes, professional codes of ethics or board policy is strictly prohibited. This includes any action or conduct communicated or performed in person, in

Further, no staff member may discuss or plan a future romantic or sexual relationship with a student.

**Reporting**

Any staff members possessing evidence of or witnessing such conduct will report it to the appropriate district administrator and/or Title IX coordinator immediately.
