To achieve its goal of promoting diversity, educational improvement, and academic excellence for all students, the board supports the establishment of charter schools within the district.

A charter school is a public, nonreligious, non home-based, nonprofit corporation forming a school that operates by sponsorship of a public school district, the South Carolina Public Charter School District, or a public or independent institution of higher learning, but is accountable to the board, or in the case of technical colleges, the area commission of the sponsor that grants its charter.

A charter school sponsor will adopt national industry standards of quality charter schools and will authorize and implement practices consistent with those standards.

A charter school is considered a public school and will meet the following conditions:

- Be subject to all federal and state laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, gender, national origin, religion, ancestry, or need for special education services (by law, however, a single gender charter school may be formed in which case gender may be the only reason to show preference or deny admission). Enrollment must not differ from the racial composition of the district or that of the targeted student population of the charter school by more than 20 percent.

- Open enrollment to any child in grades ten through twelve or who is repeating the 9th grade who resides in the district subject to space limitations. The charter school will not charge tuition or charges of any other kind unless allowed by the sponsor and comparable to the charges of the district in which the charter school is located.

- Assume responsibility for its own operation including preparation of a budget, contracting for services, audits and curriculum, and personnel matters.

- Have an education program, curriculum, and student achievement standards that meet or exceed any content standards adopted by the State Board of Education and the sponsor.

- Follow the application process as required by law. In the case of sponsorship by the South Carolina Public Charter School District or a public or independent institution of higher learning, the applicant must provide notice of the application to the district for informational purposes only.

All board members and employees are subject to the ethics and government accountability requirements for public members and public employees.
A charter school may be designated as an Alternative Education Campus (AEC) as outlined in state law. An AEC is any charter school with an explicit mission as outlined in its charter to serve an enrolled student population meeting the requirements established in state statute.

A charter school is eligible for federally-sponsored, state-sponsored, or district-sponsored interscholastic leagues, competitions, awards, scholarships, grants, and recognition programs for students, educators, administrators, staff, and schools to the same extent as other public schools.

A charter school student is eligible to compete for, and, if chosen, participate in any extracurricular activity not offered by the student’s charter school which are is offered at the resident public school he/she would otherwise attend, as well as any activities governed by the South Carolina High School League not offered at the charter school. Eligibility requirements and fees for these activities will be the same as those applied to full-time students of the resident school, and the district may not impose any additional requirements for participation on charter school students that are not imposed on full-time students.

If the board has information that an approved application by the South Carolina Public Charter School District or a public or independent institution of higher learning sponsor adversely affects the other students in the district, as defined in state regulation, or that the approval of the application fails to meet the spirit and intent of the law, the board may appeal the granting of the charter to the state administrative law court.

The performance of students attending a charter school sponsored by the district will be reflected on a separate line on the district’s report card and will not be included in the overall performance ratings of the district. “The performance of students attending a charter school sponsored by the district will be reported on school and district report cards in accordance with state regulations.”

The sponsor may deny, revoke, or not renew a charter under certain conditions outlined in the law. This decision may be appealed to the state administrative law court for review.
